Presentations

Ms Olawski introduced Ms Fawley, Outreach Specialist for the Library. The main part of the job is to provide services to those that are unable to come to the library, including bringing library material to the person. Referrals come from others that are using the program’s services, information on the library website and other service agency providers. The process starts with a staff person interviewing the patron over the phone about their needs. For home or institutional visits, staff will select titles within genres or bring specific items requested. Deliver material to senior centers, such as Helios Court and Strawberry Canyon facilities. Make presentation to residents. A person’s disability or inability to make it to the library does not have to be permanent, example women bed bound during pregnancy. Staff and volunteers visit and provide programs to nursing care facilities, examples of include storytelling, reading short stories aloud and poetry reading. There seem to be commonalities in the type of stories enjoyed by many people. In the last six-month period, January through July 31 staff reached 228 individuals.

Staff delivers discarded magazines and books to care facilities and homeless centers. These materials may be direct donations to the Library’s outreach program or from the Friends of the Library. First ½ of this year, delivered 3,931 library items, including books, audio books, DVDs and magazines; 786 gift items (books/magazines); total over 7,000 items picked up and delivered. Currently, four volunteers assist with providing services; they mostly assist with the programming at group facilities. Ms Fawley is involved with special projects such as the Library’s strategic plan and other library efforts. Ms Fawley read a section of a poem, Beyond the Years by Mr. Dunbar. Questions asked by the Trustees were how is the program promoted, staff responded one way is to be sure all library staff are aware of the program by speaking about it at library meetings etc., library flyers and handouts, and meet with Meals on Wheels staff. Comments by the trustees: seems like a great opportunity for volunteering in the library. Suggestion that senior advocacy group (SAG) at the St. Paul church be approached, seem like commonalities.

ACTION CALENDAR

A. Discussion and Possible Action on Branch Renovation Program Implementation Plan

To-be-delivered documents distributed, draft timelines for North and South Branch projects with details related to contractual aspects and template for request for proposals that City uses.

Discussion of Trustee role in selection of design firms ensued, including proposal to create selection teams (subcommittee) including members of the public with trustees and staff. Trustee Powell suggested alternative of open board interviews for selection of architect and inclusive process for selecting design features, such as teachers, someone from ADA community, Friends and Foundations. Trustee Kupfer expressed that she felt board had responsibility to have role in selection of architect and agreed with concept of community partnership and involvement into design itself. Trustee Kupfer asked if vision was part of selection process, especially for new construction and that firms should bring experience relevant to uniqueness or similarities between projects, as appropriate. Trustee Kupfer agreed all trustees should be involved in selection. Trustee Moore clarified that board is not interested in subcommittee process for selections. Trustee Kupfer would like wording to include all trustees interested in process and/or available would attend. Trustee Moore stated subcommittee process more efficient for many reasons and that if it was not the chosen method then all five Trustees should be present, the board should select the option of subcommittee or whole board.

Agreement reached that would be board noticed meeting for selection of short-listed firms, Trustee Moore wanted captured for the record he felt should be a full quorum of board present for interviews and selection. Trustees agreed that interviews and selection at same meeting. The staff would bring contract to future meeting after negotiation takes place. Trustee Lee expressed agreement that important all trustees part of process because it is so important to their role.

Some concern expressed about the aggressive timeline, would like adequate time to complete process. Leave open option for special meeting for interviewing and decision making so do not have to try to fit it all into regular BOLT meetings, staff will bring approvals to board when ready. Revised draft schedule will be included in the RFP. Trustee Powell suggested developing a few criteria to use in RFP, to help keep focused on priorities.

Discussion of options to include for South branch RFP, board would like both options (renovation and expansion or replacement with new) in RFP so design firm addresses both and board will have greater information to make a decision. Facility plan used cost estimate for new replacement library. Trustee Powell suggested select architect and include in scope of services exploration of (undefined) options. Board agreed to RFP process vs. qualifications element as first phase (RFQ) and then selection from this list. Trustee Lee asked for clarification on selection, would it be one process for each project or would the board select one
architect for all four projects. Trustee Moore, clarified that he understood each branch would undergo an independent design team selection process. Trustee Powell suggested that Claremont and West RFP process might be done differently but it is not necessary to identify this now.

Trustee Lee suggested we contact University of California, Berkeley Architectural Department regarding projects and encourage involvement by staff and students. The entire academic faculty is encouraged to work on this type of project as part of their academic responsibility.

Brief discussion of chart of possible service continuity options during closures. Informational item only with no decisions or recommendations made. This item will be included on future agendas. Trustee Powell clarified that board did not discuss specific options during bond discussion.

No action taken.

B. Board of Library Trustee Budget Priorities for FY 2010 & 2011

Staff handed out budget binder for coming 2-year budget cycle, including budget discussion schedule.

Trustee Powell suggested priorities: implementation of BLMFP; implementation of Strategic Plan; development of reserve account; and research and report on evolving self-check technologies. Trustee Lee expressed agreement with inclusion of self-check options into priorities. Trustee Moore brought forward priority of implementation of approved branch bond / Measure FF.

Trustee Kupfer asked about other unexpected budget issues, such as the Cal-PERS increases expected by 2011 of 5-12% (2-years in arrears) due to falling investment valuation and that we address long-term operational budget first. Trustee Kupfer felt 1st priority of implementing bond is fine with the long-term operational budget and “maximizing effectiveness” as agreeable.

1. Confirm the stability of the operating budget and plan for what is on the horizon operationally, to include establishing/maintaining a balanced budget
2. Implement bond measure and peripheral costs related to implementation
3. Implement strategic plan – maximize effectiveness of services with focus on current clientele
4. Research and report on evolving self-check technologies
5. Adopt policy to establish a reserve fund

Trustee Moore suggested we not put them in priority order but consider them all equally important as we move forward. The board discussed possible goals and asked that a resolution approving priorities for the fiscal year 2010 and 2011 Library budget be included on the January calendar. No action taken, decision deferred until January 2009 meeting.

C. Authorization to Contract with 3M

Discussion of options available to maintenance services for Checkpoint brand hardware and software with 3M. Trustee Lee asked if the priority from the previous agenda item would give a timeline for finding an alternative option. Trustee Lee has concerns regarding cost projections of continuing and that of returning to barcode and wondered if the return to barcode is a simplified less expensive solution to be considered during difficult economic times. Trustee Moore mentioned that security is an issue with only barcodes. Trustee Kupfer expressed her respect for the city’s policy but recognized that international firms may have a difficult time adhering to the requirements. The system we have is working and the public seems satisfied with the results. The Peace and Justice Commission (PJC) will be meeting on January 5th at 7 p.m., the Chair, Trustee Moore asked if any trustee was willing to attend. Trustee Lee will attend and Trustee Powell volunteered to attend this meeting. Trustee Powell reported that she attended a portion of the PJC subcommittee meeting and the discussion that occurred there, including a review of options to the current system.

R08-111 Moved by Trustee Kupfer, seconded by Trustee Henry-Golphin, to adopt the resolution authorizing the Director of Library Services: (1) to seek required waiver of the Nuclear Free Disclosure Declarations and, (2) upon obtaining this waiver, to enter into an agreement with 3M for a term of
three years with the option of two one-year extensions of an amount not to exceed $56,305 annually for three years, $59,200 at year four, and $63,000 at year five. Motion passed, Trustee Lee opposed, Trustees Henry-Golphin, Kupfer, Moore and Powell voted in favor.

SUBJECT:  REPORTS BY TRUSTEES AS STANDING AGENDA ITEM

RECOMMENDATION

Adopt a resolution approving the addition to the Board of Library Trustee agenda template reports by Trustees as a standing item.

FISCAL IMPACT

There is no fiscal impact from this report.

BACKGROUND

The Berkeley Unified School District Board of Education, which meets monthly, includes such an agenda item in their regular meeting agenda template. The BUSD regular agenda is ordered:

1. CALL TO ORDER
2. MEETING AGENDA APPROVAL
3. PUBLIC TESTIMONY
4. UNION REPORTS
5. BOARD MEMBERS’ REPORTS
6. SUPERINTENDENT’S REPORT
7. APPROVE CONSENT CALENDAR
8. ACTION ITEMS
9. INFORMATION ITEMS
10. ADJOURNMENT

A standing item, board members’ reports is an opportunity for board members to make oral comments if they so choose.

CURRENT SITUATION AND ITS EFFECTS

Currently, the Board of Trustees agenda does not have such an item. Trustees are limited to comments related to each agenda item. The Brown Act does allow for brief announcements but not discussion unless the item is specifically on the agenda. Trustees may request an item be
added to the agenda during agenda building or by contacting the BOLT Chair or Secretary to the Board.

At the November 12, 2008 meeting, Trustee Powell asked staff to bring an informational item on modifying the BOLT agenda template to include a standing item of Trustee comments. The item was included in the December 17, 2008 Board agenda as an informational item. At this meeting, the Board asked that it be included as a consent item in January.

Once this change is made to the agenda template, it should be noted that the following section of the Brown Act would apply:

Govt Code section 54954.2(a)(2) "No action or discussion shall be undertaken on any item not appearing on the posted agenda, except that members of a legislative body or its staff may briefly respond to statements made or questions posed by persons exercising their public testimony rights under Section 54954.3. In addition, on their own initiative or in response to questions posed by the public, a member of a legislative body or its staff may ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities. Furthermore, a member of a legislative body, or the body itself, subject to rules or procedures of the legislative body, may provide a reference to staff or other resources for factual information, request staff to report back to the body at a subsequent meeting concerning any matter, or take action."

FUTURE ACTION

None.

SUBJECT: Review and Possible Action on Library Budget priorities for FY 2010/2011

Recommendation
Adopt a resolution adopting budget priorities to be used in development of the Library’s biennial budget cycle, FY 2001 and 2011.

INTRODUCTION

The purpose of this report is to review and update budget priorities for the Library, which will be used in budget development and integrated into the annual Library work plan.

FISCAL IMPACT

There is no direct fiscal impact from this report though priorities will have budget implications.

BACKGROUND

On an annual basis, the board develops and approves budget priorities. Last fiscal year's priorities were brought to the December 2008 board meeting for discussion and to assist with the development of priorities for the coming two-year budget cycle. A status report was given on their implementation. These priorities were:

1. Complete two studies for services and facilities, including community engagement, and integrate into an action plan;

2. Research ways to maximize the effectiveness of providing public hours at all the Branches and the Tool Library;

3. Continue to identify and explore the needs of underserved communities in Berkeley for library services and pursue opportunities for extending library services beyond the Library’s physical facilities;

4. Address the needs of the Branches for repairs and capital improvements, pursuing creative alternatives for financing.
CURRENT SITUATION AND ITS EFFECTS

At the December 2008 meeting the board discussed possible goals and asked that a resolution approving priorities for the fiscal year 2010 and 2011 Library budget be included on the January calendar. At that meeting, Trustee Moore suggested all priorities be considered equally important as we move forward.

Draft options from BOLT discussion at December 17, 2008 meeting:

- Confirm the stability of the operating budget and plan for what is on the horizon operationally, to include establishing / maintaining a balanced budget
- Implement bond measure and peripheral costs related to implementation
- Implement strategic plan – maximize effectiveness of services with focus on current clientele
- research and report on evolving self-check technologies
- Adopt policy to establish a reserve fund

City Council's policy framework for the next two-year budget:
- 1-time revenue for 1-time expenses
- Long-term fiscal health, by doing 5-year planning and 2-year budgets
- Maintain 8 percent reserve
- Control labor costs while minimizing layoffs
- Manage unfunded liabilities
- No new programs without new revenues or expenditure cuts

FUTURE ACTION
No action is recommended.

SUBJECT: FINDINGS FROM CENTRAL LIBRARY MAIN SORT ROOM MATERIAL FLOW STUDY  

FISCAL IMPACT  
There is no fiscal impact from this report.

BACKGROUND  
The General Services Unit is currently in the middle of a project to improve the flow of library materials from the point of check-in through their return to the shelf. In phase one of this project, all processes in the unit were closely scrutinized, including scheduling, handling of materials, and general organization. The physical layout of the Circulation work area was likewise scrutinized. In the current phase of this project, staff members are evaluating options for improvement as presented by a paid consultant who was contracted by the library for this purpose. With ease of use and ergonomics closely in mind, fixtures and procedures involved in the circulation process are being refined in an effort to reduce the amount of time it takes to replace materials on the public shelves. It is expected that these new procedures and concepts will reduce lag time by at least half, with the possibility of a much larger improvement. All Circulation staff members are involved in this process, and solutions will be implemented in a step-by-step basis, allowing for adjustments where necessary. Though the specific improvements produced by the project will begin to be implemented most likely by spring of 2009, the conceptual tools and philosophies behind these changes will be maintained in the Circulation culture, making adjustment to changing demands easier in the future.

CURRENT SITUATION AND ITS EFFECTS  
Observation and collection of statistics by both staff and the contracted consultants have shown that materials are currently being returned to the shelves at a rate of 2-4 days from their time of return. Multiple points of, “waste,” have been identified. Staff members are currently sorting recently returned books onto shelves in the sorting room for instance, only to again sort the items again onto carts for final shelving. In addition, the sort room lacks general organization, and various service points are being underutilized.
Next Steps

Phase one of this project resulted in a 21 page report that contains suggestions for physical changes to the sort room, as well as suggestions for the refinement of currently existing processes, including scheduling, and handling of materials.

Committees within the Circulation department are creating plans to implement changes suggested in the report. The implementation of these plans will happen over the course of an unspecified period of time, not likely more than 1 year from end of phase one of the project (December, 2008).

The first major change will be the removal of the sorting shelves in the Circulation work/sort room. The removal of these shelves is tentatively planned for the end of January/beginning of February, 2009. As it is necessary to purchase new book trucks to account for the loss of storage space, the final date will be settled on the receipt of said book trucks.

The committee is also preparing suggestions for changes in scheduling and other relevant areas to be impacted by the removal of the shelves. A period of adjustment will follow the actual removal, allowing staff to refine processes further, since it is assumed that some, “problem areas,” will be unidentified until that point.

Further alterations to the sort room will follow, including redesign of check-in workstations, removal of some underused fixtures, allowing for the creation of a streamlined and ergonomically sound workspace. All changes will be implemented in phases similar to that of the removal of the shelves – implementation, observation, refinement.

As each phase is begun, a new staff committee will be created to oversee its major components. These committees will report to the staff at large as to the plan of action. All Circulation staff members will serve on one or more of these committees before the project reaches completion.

FUTURE ACTION

No action recommended at this time.
