

# Library Native Plant Scavenger Hunt w/ the Bringing Back the Natives Garden Tour

- Visit some local gardens with native plants that support pollinators!
  - You can register for the Bringing Back the Natives Garden Tour (not a library event) at [bringingbackthenatives.net](http://bringingbackthenatives.net) in order to receive map/addresses. The Berkeley gardens and Victoria Gardens Pollinator Corridor in Oakland will help with the hunt!
  - If you can't make it to one of these, you might spot these in other local pollinator patches (hint: check some of our Berkeley parks!)
- Try to find, ID, and draw at least 10 out of 15 of the plants on this list (don't pick them!)
- Hint: names of these plants are included on the last page in random order
- Fill out the sheet and turn it in to the Berkeley Central Library 4th Floor Desk by May 7th to be entered for either the Youth or Adult prize-drawing! (Or just do this for fun!)

More info online at [berkeleypubliclibrary.org/events](http://berkeleypubliclibrary.org/events)

The plant you're looking for:	What is the common name of the plant? What is the scientific name?	What did you see? (The flower? Just a leaf? Any creatures?) Try to draw it!
		
		
		

**The plant you're looking for:**

**What is the common name of the plant?  
What is the scientific name?**

**What did you see?**  
(The flower? Just a leaf? Any creatures?)  
**Try to draw it!**
